# DAKO Fleet

DAKO Fleet is the telematics solution for transport and fleet managers. With it, you can efficiently handle all the routine tasks of your day-to-day business operations while also keeping compliant with your legal obligations. The web-based platform offers various software modules that can be combined to suit your requirements. In conjunction with the app DAKO drive the platform gives you an overview of your fleet and drivers, creating more time for important matters in your business.

- ✓ Save up to 40 % of your time with automation
- ✓ Reduce your liability risk through legally compliant processes
- ✓ Reduce fines by up to 15 % through detailed insights and optimisation

## The Most Important Features at a Glance

Manual or automatic readout and archiving

Deadline management incl. reminders

Live remaining driving times and vehicle tracking with geozones

Infringement evaluation with automatic fine calculation

Risk assessment and instructions at the touch of a button

App with vehicle pre-check

Electronic driving licence verification

Automatic expenses calculation

and more ...
